BORN IN SOUTHERN CALIFORNIA, USA IN 1996

Jettribe is a true core brand for the watercraft enthusiast since 1996. We've lived, breathed and loved the sport since Kawasaki 550 stand-ups were king, neon and fluorescent colors were cool (And they are back "in" now??), and MC Hammer's running man was the move of all moves! We were drying off our mullets after every ride. Though the times are a-changing, our mission has remained the same. With our passion and love for the watercraft industry and lifestyle, we aim to better the industry through our products and personal commitment.

In the last few years, Jettribe has stepped up our game by having two Jettribe Race Rigs for the Jettribe West Coast Series and an additional rig for the East coast events. From California to Florida, our Jettribe Race Rig brings our products to the racers, giving away prizes, providing rider support at virtually every race event and freeride event in the USA! Internationally, Jettribe has been taking our Jettribe USA Team overseas to more countries than ever - including China, Thailand, Martinique, and Europe.

At Jettribe we are stoked and proud to have the opportunity be the title sponsor of these events: Jettribe Asia Invitational, Jettribe West Coast National Tour, Jettribe Euro Jetski Tour, Nordic Jetski Championship, and the Jettribe Doncaster Event. Jettribe is totally grateful to have been the 2014 title sponsor of USBA World Finals at Lake Havasu City, Arizona. Jettribe is now the official gear of the China National Team and the Thai National Team. We are also the official partners of the Asian Aquabike Open, the Russky Grand Prix, and King's Cup Jet Ski World Cup, in addition to providing the official gear and apparel for Kings Cup.

The Watercraft Industry evolved over the years. Personal Watercraft have become bigger, faster, and more powerful, but the industry's riding gear has remained largely unchanged for the last decade. We strive to evolve the gear to keep up with the PWCs and the needs of the riders. At Jettribe we design, test, and develop ride gear year-round. Our ride gear are designed with the racer in mind, but still at home with the weekend warrior. We want a better experience for the rider, in comfort, durability, and protection.

At Jettribe, we build the products that we would use ourselves. Our prime mission is to provide the best quality and performance for the PWC rider first, and consider sales volumes later. The Jettribe model is to release quality products that we can truly stand behind. We are truly excited that Jettribe is considered to be one of the fastest growing PWC gear companies. We support the PWC rider and thankfully, the riders in turn support Jettribe!

The Jettribe Family!

The Jettribe Wetsuit John and Jacket Race Suit is built, designed, and engineered for the riders' maximum comfort, flexibility, warmth and mobility. Our Jettribe RaceSuits are built with strategic placement of 2-3 mm neoprene panels. The 3mm panels are for the warmth and 2mm panels are built into the high movement areas: the inner arms and legs. We spent a year field testing with our Jettribe Race Team under racing conditions. The results are features like the Jet Grip texture print placed on the inner thigh panels and legs to provide the rider with additional traction while riding. The injected silicone rubber knee pads offer grip and protection. All seams have our interlocking flat stitch to provide a watertight seal and maximum comfort against the skin. We carefully select just the right combination of thicknesses of neoprene to retain a rider's body heat while riding in various conditions. The wetsuit neoprene's property is a closed, high density foam made up of thousands of tiny air bubbles known as cells. These cells provide an insulation barrier which slows down the conduction of heat, allowing the body's heat to be retained. Jettribe John/Jacket Race Suits are engineered with the understanding of the PWC rider's constant movement which often over-generates body heat. For example, surf wet suits are designed for a body constantly being in the water. While our Jettribe Wetsuit John/Jacket Race Suits are designed for the true PWC rider who is both in the water and in the cold air! We at Jettribe are proud to present the Race Suit! Enjoy Every Ride!

The Jettribe Neoprene Tour Coat, or Moto Jacket is designed for those chilly days on or off the Water. The tour coat is made as an additional overlayer to help keep your core temperature high which is primarily in your chest. From our Jettribe professional team riders, most of the "cold factor" is not from getting wet or falling off your ski, it is from the water splashes and cold, high winds which occur when flying across the water at 80 mph. Our Jettribe Tour Coat has some special features: it has an oversized cut to be worn over the lifevest and wetsuit. Most riders' major complaints about other tour coats are that jackets are heavy and restrict movement. The Jettribe Tour Coat has pre-curved elbow joints for added comfort, and the 5mm neoprene goes through our proprietary compression process to make it 3.5 mil. This gives the material a lighter feel, while providing the same cold protection density as a 5mm. The bold and oversized graphic is printed by a gas fusing process, so that the material is soft and light to the touch without fading nor cracking like screenprinted logos.

U.S.C.G SIDE ENTRY VESTS

- US Coast Guard Type 3
- IJSBA Race Legal
- Three-Buckles Closure
- Adjustable Straps
- Removable Velcro Patch
- D-Ring for Attaching Lanyard
- D-Ring for Race Collar Attachment
- Race Collar Compatible
- Chest and Back Deflector Compatible

The Jetribe USCG (US Coast Guard Approved) Side Entry Vest is IJSBA race legal all over the world. This vest is an excellent all-around vest for riding freestyle, closed-course racing, off-shore endurance racing and naturally, for recreation PWC riding as well.

As of 2017 the Jetribe USCG (U.S. Coast Guard) Approved Side-Entry Vest has the incorporated rescue handles unique only to our Jetribe race vests. The rescue handles are wrapped underneath and bar tacked, then finished off with a box stitch.

Our Jetribe race vests have been proven with top professional racers throughout the world. Some of the features that separate our vest from the rest are: triple rescue handles, back protection compatible, triple 38mm buckles and webbing, inter-changeable velcro flag patches, and removable heavy duty PWC lanyard D-ring. Plus, the rear race collar attachment.

Jetribe designed and developed the vests using the best materials available. We do recommend that riding equipment be replaced every two seasons. If there are any signs of fading, discoloration, or drying out of the materials - please, replace it right away. Sun, water, wet, dry, or salt water are hard on any materials.

- Pre Formed molded inner EVA foam for the ultimate flexibility and comfort.

The Jettribe UR-20 Side Entry Vest. This vest is an excellent all-around vest for free riding, freestyle, closed course racing, offshore endurance racing and naturally, for recreation PWC riding as well.

As of 2017 the Jettribe UR-20 Side Entry Vest has the incorporated pre-molded foam unique only to our Jettribe race vests. What is it? The pre-formed mold adds the ultimate in flexibility to conform to the contour of the rider's body, instead of forcing a flat piece EVA foam to wrap around a rider's body. Plus, our second process is heat and pressure compression, this allows us to take a 4-inch EVA foam panel and compress it down to a 2 inch thickness. This process allows for a lighter and more comfortable race vest with maximum flotation.

The UR-20 side entry vests utilize an ink fusion technology, instead of traditional silkscreen ink. The ink fusion wraps and dyes the color around the yarn and fibers of the materials. This allows for a smooth, soft, feel to the vest. And, it will never crack or dry out like the screen printed inks.

We are especially proud of the UR-20. We have taken the best of all vests and built into this one vest. Every minute detail has been carefully considered. For example, all of the webbing are tacked down with a zig-zag bar tack, rescue handles are wrapped underneath, then bar tacked, then finished off with a box stitch. All webbing exit openings are reinforced with a TPR collar for durability. Most of these details are over-looked by others, but not by the Jettribe design team.

Our Jettribe race vests have been proven with top professional racers throughout the world. Some of the features that separate our vest from the rest are: triple rescue handles, back protection compatible, triple 38mm buckles and webbing, interchangeable velcro flag patches and removable heavy duty PWC lanyard D-ring. Plus, the rear race collar attachment.

Jettribe designed and developed this vest using the best materials available. We do recommend that riding equipment be replaced every two seasons. If there are any signs of fading, discoloration or drying out of the materials - please, replace it right away. Sun, water, wet, dry, or salt water are hard on any materials.

The Jetribe RS-17.2 Side-Entry Impact Vest. This vest is an excellent vest for closed course racing, offshore endurance racing, and naturally for recreation PWC riding as well. One important built-in feature of this vest is the high-density, compression molded chest plate. This plate is designed to reduce chest impacts.

As of 2017 the Jetribe RS-17.2 Side-Entry Vest has an incorporated pre-molded foam unique only to our Jetribe race vests. What is it? The pre-formed mold adds the ultimate in flexibility to conform to the contours of the rider's body, instead of forcing a flat piece EVA foam to wrap around a rider's body. Plus, our second process of heat and pressure compression allows us to take a 4-inch EVA foam panel and compress it down to a 2 inch thickness. This process allows for maximum flotation with lighter and more comfortable race vest.

The RS-17.2 side-entry vests utilize an ink fusion technology instead of traditional silkscreen ink. The ink fusion wraps and dyes the color around the yard and fibers of the materials. This allows for a smooth, soft feel to the vest. And it will never crack or dry out like the screen printed inks.

We are especially proud of the RS-17.2, taking the best of all vests and building features into this one vest. Every minute detail has been carefully considered. For example all of the webbing are tacked down with a zig-zag bar tack, rescue handles wrapped underneath and bar tacked, then finished off with a box stitch. Most of these details are over looked, but not by the Jetribe design team.

Our Jetribe race vests have been proven with top professional racers throughout the world. Some of the features that separate our vest from the rest are: triple rescue handles; back protection compatible, triple 38mm buckles and webbing, inter changeable velcro flag patches and removable heavy duty PWC lanyard D-ring. Plus, the rear race collar attachment.

The Jettribe Moto Race Pants are designed as an alternative to wearing a wetsuit. Not all days are chilly, but a PWC rider still needs some protection while riding. Our Moto Pants offer the best of both worlds: protection and warmth, plus allowing maximum rider movements.

Some of the unique features that set the Jettribe moto race pants far above the rest are: the perfect integration of quick-dry material with four-way stretch neoprene to allow comfort and flexibility. Plus, the built-in compression molded leg protectors provide a rider with an additional layer of protection. For the runabout riders, our moto pants have direct inject silicon traction grooves ("Gecko Grip") on the butt to help keep you on your PWC's seat.

Our Special Forces edition Race Pants have removable polycarbonate honeycomb impact cells.

Whether you are a hard core rider, racer, or recreational rider, these pants are a must for your arsenal of riding gear.

Rescue PWC Hybrid Tow Sled

The Jettribe Rescue Tow sleds are rescue tow sled equipment. Designed to be towed by PWC (Jet Ski) for fast rescue. The Jettribe Rescue Hybrid PWC Tow Sleds is light weight and tough. The OLS® technology is Patented in the USA and other countries. The high tech materials and construction are unique. There is no other like it in the world.

The internal aluminum honey comb stringer system (DAS). This makes it extremely lighter to the traditional rescue boards. This makes the sled fast and maneuverable. The tow-behind Jetski rescue sled is designed for use behind Personal Water Craft (PWC) to react quickly and arrive on time to a swimmer in trouble or a downed rider on a race course. Also, the towable rescue sled is the perfect equipment for tow in surfing.

Worldwide professional associations rely on the Rescue Sled as their vital rescue equipment, The Peruvian National Police, Surf Rescue Division, China Closed Course PWC Racing, Yamaha of Thailand PWC Safety, and USA IJSBA West Coast Closed Course Racing.

Features:

Padded handles for support and "last chance" loops. Nonslip deck. Ideal for Tow-In.

Size: 71" x 39" x 4.4";

Weight: 23.1 lbs, Vol 162lts.

Max in Water load 520 lbs

SPECIAL PROGRAMS FOR SAR, MILITARY, USBA AFFILIATES, COAST GUARDS, AND TRAINING CAMPS.

Wrist Guard

- Ideal protection against hyper extension
- Keeps wrist straight, channeling push/pull action directly to the PWC's handlebars
- Great support for rider recovering from wrist injuries
- Allows full wrist movement for thumb throttle
- Top protective layer of rubber TPR
- Laminated with Ultra high density eva foam and air mesh for Breathability
- Sold as "Each", not Pairs. Glove not included
- One Size

- Universal fit for any Jetribe Side-Entry Vest: RS-16, RS-17, Moto1-G2&G3, JetPilot Side-Entry and QuakySense, Yamaha, Kawasaki Fly Side-Entry Vest.
- High Impact Energy Absorbing
- External ABS Plastic Shell.
- Over Under Locking Velcro for Added Strength.
- The Back Deflector are securely attached at Six Points.
- Meets IJSBA back protection requirements at all sanction races world wide.
- The Jetribe Striker is the only back back protection gear design exclusively for PWC racing.
- The Jetribe Striker is design to be worn over the side entry lifevest. The (First Layer) design to is reduce, deflect or defeat the accidental impact at the farthest layer away from the rider's body.
- The Jetribe Striker is constructed of a Dual sandwich compression molded EVA foam. This ridgit layers provides a semi hard frame but still flexible. The double EVA foam layers adds addition floatation and impact energy absorbing factors.
- The Jetribe Striker floats indepently, which means when attached to your race vest. It will not reduce the flotation of your vest.

Rec. R-14 PWC Ride Shoes

- The Rec R-14 PWC Ride Shoes are a perfect hybrid for watercraft riding and walking on shore or the launch ramp. Keeping the race-proven Gecko Grip design and having the flexibility and comfort of a walking shoe, this low-cut bootie is a must for any PWC rider.
- Size: 5, 6, 7, 8, 9, 10, 11, 12, 13

Fit Chart

Dual-Ride Boots

- Evolution of the Personal Watercraft boot is here. This boot has undergone tremendous amount of testing by top riders and it shows.
- The boot exterior is built for tougher conditions and the structure is more water resistant than ever before. The sole will quickly disperse water between the sole of boot and the surface to allow instant traction and grip to the deck of the jetski.

DUAL-RIDE BOOTS

#JTG 15492
Color: Grey/Black
Size: 5, 6, 7, 8, 9, 10, 11, 12
Retail : \$98.99 USD

- Rubber soles are designed with three raised contact points to accommodate a PWC rider's aggressive stance.
- Pre-curved sole with arch support allows maximum comfort!
- Sole wraps around the sides and toe, limiting the lateral "side-to-side" movement.
- The extra high neoprene cut of the boot limits the rocks and gravel from getting in. Velcro straps are used for a snug and comfortable fit. Rubber soles are stitched for durability. Built with water tolerant materials. Tough rubber toe protects toes on rocky beaches. Three-point closure with wrap-around webbing.

PWC Ride Boots

- Modeled after the grip pads of a gecko, the Gecko Grip soles sport a whopping 433 individual traction pads strategically spaced apart to allow the sole to quickly disperse water between the boot and the PWC surface to allow instant traction and grip to the deck of your PWC.
- The rubber soles are designed with three raised contact points to accommodate a PWC rider's aggressive stance, are pre-curved with arch support, and wrap around the sides and toes to mitigate lateral side to side movement.
- Extra High Neoprene Cut Limits Rocks and Gravel from Getting In.
- 9 Mesh flow Through Panels Allow Water to Drain Quickly.
- 3 Adjustable Velcro Straps for That Custom Snug fit.
- Size: 6, 7, 8, 9, 10, 11, 12, 13

- A** Gas flap opening on (most models).
- B** For added strength, tie downs are sewn with "X" box over our tough PVC material.
- C** Tough 2inch tie downs 4 total: 2 on the sides & 2 in the rear (Sit Downs) Stand ups: Only 1 on the side, 2 on the rear.
- D** Front nose pin & front lower chin are reinforced with 1680 D Ballistic Nylon material.
- E** Zippered gas flap with zipper pull rubber garage so that water will pass over the ends during rain (on some models).
- F** Fat, adjustable shock cords are sewn full-length on the watercraft along the hem.
- G** Nose pin opening are reinforced with tough Ballistic Nylon material. Not available for all crafts.
- H** Internal Identification Tag.
- L** Soft Nyltex material Lines the hood area to prevent scratching of your PWC's paint.
- J** Our "Loop N Draw" tight System does not need any metal hooks!! Yeah, we are good! Thinking outside the box.
- K** Tough, oversized, 1.5 feet dual nylon webbing straps for side and rear tie downs. Tie downs can attach or release with big 1.5 feet Jettribe strap buckles.
- M** Built with Our proprietary Gen II Fade and Sun resistance Nylon!
- O** Weather and Water Resistant Generation II Nylon with 3 layers of PU coating underneath.
- P** No exposed seams. All panels are finished with Nylon binding and triple stitched with Nylon thread for unbeatable shear toughness!

Thank you for checking out one of the best PWC covers on the market today. For over a decade Team Jettribe USA racers and professional racers all over the world have relied on Jettribe PWC Premium covers to protect their race skis while traveling throughout the United States and abroad. Besides racers, watercraft enthusiasts rely on our Jettribe PWC covers to protect their skis while in storage or trailering to their favorite riding spots. For over a decade Jettribe covers are known for their quality and durability.

Jettribe premium covers offer the most water resistant, water repellent weather protection for your watercraft, plus our covers are specially built for trailering. Here are some cool features that set our PWC covers above the rest. We added four 1.5" webbing detachable tie downs, plus we ran shock cord bungee all around the bottom leading edge. For weather resistance, our materials are specially UV coated with the exclusive (CFM) material that is formulated only for Jettribe! It took us nearly two years to figure out the formulation! For water resistance the material is coated with three layers of clear PU or PVC backing to keep out the water. All our seams are triple-stitched and finished off with binding. No exposed seams! The inside hood area is lined with soft nyltex material to protect your PWC from getting scratched paint. All pin or eye bow areas are reinforced with a tough extra layer of Nylon material. When fueling up, most of our covers have a gas flap opening. Talk is talk, but seeing is believing. Check out our Jettribe covers at your local dealership. Jettribe Covers are a perfect quality, fit, finish, and a true work of art!

- UV Protection , breathable and Quickdry- The Jettribe Rash Guard is constructed with 20% Spandex and 80% polyester fabric, which provides lightweight, stretchy, and easy movement for riding PWC and other water activities. The comfort fit design offers ultimate warmth and burn prevention for hours of PWC riding.

FLAT LOCK STITCHING - Flatlock stitching is an ideal stitching style for watercraft riding gear. The parallel stitching method is perfect for riding gear due to its strength and flexibility. Open to water penetration, the unique seam offers high performance and fast drying times that complement the rash guard's light, breathable fabric. Count on flat lock stitching to keep your long or short sleeved guard wearing great every day. • Rash Guard's fade-resistant coloring and design is made to enhance your time on the water. Make the most out of your next ride with this high performance and , comfortable rash guard. • comfortable ride possible. The tight fit provides optimal staying power on even the roughest waters.
