WARNING: DO NOT RIDE WITHOUT JETTRIBE GEAR

Jetribe is a true core brand for the watercraft enthusiast since 1996. We've lived, breathed and loved the sport since Kawasaki 550 stand-ups were king, neon and fluorescent colors were cool (And they are back "in" now??), and MC Hammer's running man was the move of all moves! We were drying off our mullets after every ride. Though the times are a-changing, our mission has remained the same. With our passion and love for the watercraft industry and lifestyle, we aim to better the industry through our products and personal commitment.

In the last few years, Jetribe has stepped up our game by having two Jetribe Race Rigs for the Jetribe West Coast Series and an additional rig for the East coast events. From California to Florida, our Jetribe Race Rig brings our products to the racers, giving away prizes, providing rider support at virtually every race event and freeride event in the USA! Internationally, Jetribe has been taking our Jetribe USA Team overseas to more countries than ever - including China, Thailand, Martinique, and Europe.

At Jetribe we are stoked and proud to have the opportunity be the title sponsor of these events: Jetribe Asia Invitational, Jetribe West Coast National Tour, Jetribe Euro Jetski Tour, Nordic Jetski Championship, and the Jetribe Doncaster Event. Jetribe is totally grateful to have been the 2014 title sponsor of USBA World Finals at Lake Havasu City, Arizona. Jetribe is now the official gear of the China National Team and the Thai National Team. We are also the official partners of the Asian Aquabike Open, the Russky Grand Prix, and King's Cup Jet Ski World Cup, in addition to providing the official gear and apparel for Kings Cup.

The Watercraft industry evolved over the years. Personal Watercraft have become bigger, faster, and more powerful, but the industry's riding gear has remained largely unchanged for the last decade. We strive to evolve the gear to keep up with the PWCs and the needs of the riders. At Jetribe we design, test, and develop ride gear year-round. Our ride gear are designed with the racer in mind, but still at home with the weekend warrior. We want a better experience for the rider, in comfort, durability, and protection.

At Jetribe, we build the products that we would use ourselves. Our prime mission is to provide the best quality and performance for the PWC rider first, and consider sales volumes later. The Jetribe model is to release quality products that we can truly stand behind. We are truly excited that Jetribe is considered to be one of the fastest growing PWC gear companies. We support the PWC rider and thankfully, the riders in turn support Jetribe!

The Jetribe Family!

The Jettribe Wetsuit John & Jacket Race Suit is built, designed and engineered for the riders' maximum comfort, flexibility, warmth and mobility:

- Built with 3mm panels are for warmth and 2mm panels for high movement areas like the inner arms and legs
- Jet Grip texture print placed on the inner thigh panels for additional traction
- Injected silicone rubber knee pads offer grip and protection
- All seams have our interlocking flat stitch to provide a watertight seal and maximum comfort against the skin
- Carefully selected neoprene for the right combination of thickness to retain a rider's body heat in various conditions
- Neoprene is a closed, high density foam made up of thousands of tiny air bubbles (cells) which provide an insulation barrier to slow down the conduction of heat
- John/Jacket Race Suits are engineered with the understanding that constant rider movement over-generates body heat while in water and open air, as opposed to surf wetsuits that are designed to always be in water.

WARNING: DO NOT RIDE WITHOUT JETTRIBE GEAR

The Jettribe Neoprene Tour Coat, or Moto Jacket is designed for those chilly days on or off the water.

- Made as additional overlayer to help keep your core temperature high, primarily in your chest area
- Protects from water splashes while on your ski and the cold, high winds when flying across the water at 80MPH.
- Oversized cut to be worn over the life vest and wetsuit
- Pre-Curved elbow joins for added comfort and flexibility
- Proprietary compression process makes 5mm neoprene until 3.5mm for a lighter feel and better cold protection
- Bold and oversized graphics are printed by gas fusion process, so material is soft and light to the touch without cracking or fading

WARNING: DO NOT RIDE WITHOUT JETTRIBE GEAR

The Jettribe UR-20 Side Entry Vest is an excellent all-around vest for free riding, freestyle, closed course racing, offshore endurance racing and recreation riders:

- Pre Formed molded inner EVA foam that contours to the rider's body, instead of forcing a flat piece EVA foam around the chest
- Ink fusion graphic application for a smooth, soft, feel that will never crack or dry out like screen printed inks
- Webbing is tacked down with a zig-zag bar tack, rescue handles are wrapped underneath, bar tacked, then finished off with a box stitch
- All webbing exit openings are reinforced with a TPR collar for durability
- Three-Buckle Closure
- Adjustable Straps
- Removable Velcro Patch
- D-Ring for attaching Lanyard
- D-Ring for Race Collar Attachment
- Race Collar compatible
- Chest and Back Deflector Compatible

The Jettribe UR-20 Side Entry Vest. This vest is an excellent all-around vest for free riding, freestyle, closed course racing, offshore endurance racing and naturally, for recreation PWC riding as well.

As of 2017 the Jettribe UR-20 Side Entry Vest has the incorporated pre-molded foam unique only to our Jettribe race vests. What is it? The pre-formed mold adds the ultimate in flexibility to conform to the contour of the rider's body, instead of forcing a flat piece EVA foam to wrap around a rider's body. Plus, our second process is heat and pressure compression, this allows us to take a 4-inch EVA foam panel and compress it down to a 2 inch thickness. This process allows for a lighter and more comfortable race vest with maximum flotation.

We are especially proud of the UR-20. We have taken the best of all vests and built into this one vest. Every minute detail has been carefully considered. For example, all of the webbing are tacked down with a zig-zag bar tack, rescue handles are wrapped underneath, then bar tacked, then finished off with a box stitch. All webbing exit openings are reinforced with a TPR collar for durability. Most of these details are over-looked by others, but not by the Jettribe design team.

Our Jettribe race vests have been proven with top professional racers throughout the world. Some of the features that separate our vest from the rest are: triple rescue handles, back protection compatible, triple 38mm buckles and webbing, interchangeable velcro flag patches, removable heavy duty PWC lanyard D-ring, PLUS the rear race collar attachment.

The Jettribe Kids Neoprene Tour Coat, or Moto Jacket, is designed exactly like our adult jackets, to warm junior riders on those chilly days on or off the water.

- Made as additional overlayer to help keep your core temperature high, primarily in your chest area
- Protects from water splashes while on your ski and the cold, high winds when flying across the water at 80MPH.
- Oversized cut to be worn over the life vest and wetsuit
- Pre-Curved elbow joints for added comfort and flexibility
- Proprietary compression process makes 5mm neoprene until 3.5mm for a lighter feel and better cold protection
- Bold and oversized graphics are printed by gas fusion process, so material is soft and light to the touch without cracking or fading

PRODUCT LINE: KIDS TOUR COAT - YOUNG HEART
 SIZE: Youth S-XL
 MATERIAL: 2/3 mm Jet Stretch Neoprene

Oceanside California, Located south of Jettribe HQ

Rec R-14 PWC Ride Shoes are a perfect hybrid for watercraft riding and walking on shore.

Keeping with the race-proven Gecko Grip design, and the flexibility and comfort of a walking shoe, this low cut bootie is a must for any PWC rider.

The Pro Am Shoe is a mid-cut PWC ride shoe, ideal for PWC riding and walking around the launch ramp / beach.

Secures tight with a 3-point top webbing tie system.

Bottom grip is made of two-part rubber. Ankle sides have flexible and comfortable neoprene.

The GRB 2.0 rubber soles are designed with three raised contact points to accommodate a PWC riders aggressive stance.

The extra high neoprene cut limits rocks and gravel from getting in.

The 9 mesh flow through panels allow water to drain quickly.

Has 3 adjustable velcro straps for a custom snug fit for every rider.

Pre-curved sole with arch support allows maximum comfort.

Sole wraps around the sides and toe, limiting the lateral "side-to-side" movement.

Built with water tolerant materials.

Tough rubber toe protects toes on rocky beaches.

Sole quickly disperses water to allow for instant traction and grip to the deck of the jet ski.

Dual velcro closure for a custom snug fit.

Sole wraps around sides and toe, limiting "side to side" lateral movement.

Three raised contact points on the sole to accommodate a PWC riders aggressive stance, with pre-curved arch support allows maximum comfort.

Recommended for use with all our boots

Made of water-wicking lycra

Exclusive Dual-Layer design with a second layer that folds over the top of your boot to keep sand and rocks out.

Rescue PWC Hybrid Tow Sled

The Jettribe Rescue Tow Sleds are designed to be towed by a PWC (Jet Ski) for fast rescue. The Jettribe Rescue Hybrid PWC Tow Sled is light weight and tough. The OLS® technology is Patented in the USA and other countries. The high tech materials and construction are unique. There is no other like it in the world.

The internal aluminum honey comb stringer system (DAS) makes it extremely light compared to other traditional rescue boards. This makes the sled fast and maneuverable. The tow-behind Jetski rescue sled is designed to be used behind a Personal Water Craft (PWC) to react quickly and arrive on time to a swimmer in trouble or a downsided rider on a race course. Also, the towable rescue sled is the perfect equipment for tow-in surfing.

Worldwide professional associations rely on the Rescue Sled as their vital rescue equipment: The Peruvian National Police, Surf Rescue Division, China Closed Course PWC Racing, Yamaha of Thailand PWC Safety, and USA IJSBA West Coast Closed Course Racing.

Features:

Padded handles for support and "last chance" loops. Nonslip deck. Ideal for Tow-In.

Size: 71" x 39" x 4.4"
Weight: 23.1 lbs, Vol 162 lts
Max in Water Load: 520 lbs

USEFUL FOR PROGRAMS LIKE SAR, MILITARY, IJSBA AFFILIATES, COAT GUARD, AND TRAINING CAMPS.

- + Universal fit for any Jetribe Side-Entry Vest: RS-16, RS-17.2, Race & U.S.C.G., + JetPilot Side-Entry and QuakySense, Yamaha, Kawasaki Fly Side-Entry Vest.
- + High Impact Energy Absorbing
- + External ABS Plastic Shell.
- + Over Under Locking Velcro for Added Strength.
- + The Back Deflector are securely attached at Six Points.
- + Meets IJSA back protection requirements at all sanctioned races world wide.
- + The Jetribe Striker is the only back protection gear designed exclusively for PWC racing.
- + The Jetribe Striker is designed to be worn over the side entry lifevest. The (First Layer) design to is reduce, deflect or defeat the accidental impact at the farthest layer away from the rider's body.
- + The Jetribe Striker is constructed of a dual sandwich compression molded EVA foam. This rigid layers provides a semi hard frame but still flexible. The double EVA foam layers adds addition floatation and impact energy absorbing factors.
- + The Jetribe Striker floats indepently, which means when attached to your race vest. It will not reduce the floatation of your vest.

WARNING: DO NOT RIDE WITHOUT JETTRIBE GEAR

The Jettribe rashguard's fade-resistant coloring and design is made to enhance your time on the water. Make the most out of your next ride with this high performance and comfortable rashguard.

With UV Protection, breathable and quick-drying, the Jettribe Rashguard is constructed with 20% Spandex and 80% polyester fabric, which provides lightweight, stretchy, and easy movement for riding PWC and other water activities. The comfort fit and design offer ultimate warmth and sunburn prevention for hours of PWC riding.

FLAT LOCK STITCHING - Flatlock stitching is an ideal stitching style for watercraft riding gear. The parallel stitching method is perfect for riding gear due to its strength and flexibility. Open to water penetration, the unique seam offers high performance and fast drying times, that complement the rashguard's light, breathable fabric. Count on flat-lock stitching to keep your long or short sleeved guard wearing great every day. The tight fit provides optimal staying power on even the roughest waters.

P.72

- Side triangle stretch panel to reduce blowout from falling
- 100% heavy duty polyester quick dry material
- White shoe-string with classic end cap to reduce fraying.
- Built-in key loop lanyard D-ring
- Rubber TPR drain hole - so water exits out of the shorts with no balloon effect
- Reinforced "X" bar stitch throughout
- Graphics applied sublimation gas fusion, so the material is soft and light to the touch without fading or cracking

The Jettribe Tow Line Float attaches easily to any towable lines.

The float line keeps the line floating above the water to reduce the chances of your line being suck into your PWC's pump.

PRODUCT	STYLE	COLOR
Tow Line Float	#JTA 17341	Assorted

The Jettribe Dock Bumper is constructed of tough nylon outer shell and the core in a high density energy impact EVA foam.

Compact and fold-able, easy to use with adjustable webbing to accommodate most PWC.

#JTA 17345	Light Green

Dog Vest Size Chart

Size	Length	Chest
XX - Small	13" - 17" (33cm - 43cm)	
X - Small	17" - 22" (43cm - 56cm)	
Small	22" - 27" (56cm - 69cm)	
Medium	27" - 32" (69cm - 81cm)	
Large	32" - 36" (81cm - 91cm)	
X-Large	36" - 42" (91cm - 107cm)	

The Jettribe Dog vest is design to match your pet's active water lifestyle. Constructed out of Neoprene and EVA foam, exact materials as the Human vests, to allow maximum flexibility and floatation. Features dual 38 mm adjustable hidden straps, and a front adjustable hidden chest strap. Dual retrieval handles on the L and XL models.

Measure the circumference widest part of your dog's cage.

Gas flap opening on (most models).

For added strength, tie downs are sewn with "X" box over our tough PVC material.

Tough 2inch tie downs 4 total: 2 on the sides & 2 in the rear (Sit Downs) Stand ups: Only 1 on the side, 2 on the rear.

Front nose pin & front lower chin are reinforced with 1680 D Ballistic Nylon material.

Zippered gas flap with zipper pull rubber garage so that water will pass over the ends during rain (on some models).

Fat, adjustable shock cords are sewn full-length on the watercraft along the hem.

Nose pin opening are reinforced with tough Ballistic Nylon material. Not available for all crafts.

Internal Identification Tag.

Soft Nytex material Lines the hood area to prevent scratching of your PWC's paint.

Our "Loop N Draw" tight System does not need any metal hooks!! Yeah, we are good! Thinking outside the box.

Tough, oversized, 1.5 feet dual nylon webbing straps for side and rear tie downs. Tie downs can attach or release with big 1.5 feet Jettribe snap buckles.

Built with Our proprietary Gen II Fade and Sun resistance Nylon!

Weather and Water Resistant Generation II Nylon with 3 layers of PU coating underneath.

No exposed seams. All panels are finished with Nylon binding and triple stitched with Nylon thread for unbeatable shear toughness!

Thank you for checking out one of the best PWC covers on the market today. For over a decade Team Jettribe USA racers and professional racers all over the world have relied on Jettribe PWC Premium covers to protect their race skis while traveling throughout the United States and abroad. Besides racers, watercraft enthusiasts rely on our Jettribe PWC covers to protect their skis while in storage or trailering to their favorite riding spots. For over a decade Jettribe covers are known for their quality and durability.

Jettribe premium covers offer the most water resistant, water repellent weather protection for your watercraft, plus our covers are specially built for trailering. Here are some cool features that set our PWC covers above the rest. We added four 1.5" webbing detachable tie downs, plus we ran shock cord bungee all around the bottom leading edge. For weather resistance, our materials are specially UV coated with the exclusive (CFM) material that is formulated only for Jettribe! It took us nearly two years to figure out the formulation! For water resistance the material is coated with three layers of clear PU or PVC backing to keep out the water. All our seams are triple-stitched and finished off with binding. No exposed seams! The inside hood area is lined with soft nytex material to protect your PWC from getting scratched paint. All pin or eye bow areas are reinforced with a tough extra layer of Nylon material. When fueling up, most of our covers have a gas flap opening. Talk is talk, but seeing is believing. Check out our Jettribe covers at your local dealership. Jettribe Covers are a perfect quality, fit, finish, and a true work of art!
